**Junior Web Developer**

To start my career in the Software and IT field by applying my web development, deployment, and problem-solving skills to build scalable, user-focused applications while continuously enhancing my technical expertise.

## WORK EXPERIENCE

**Ranazonai Technologies**                                                      **04/2025 - Present**
**Junior Web Developer Intern**

Designed and developed **responsive, user-focused websites** using **HTML, CSS, JavaScript, React, and modern UI frameworks**. Worked on building and maintaining **client-facing web pages**, improving layout, responsiveness, and performance. Deployed websites on **Hostinger VPS**, managed **domain and DNS configurations**, and handled **production builds**. Used **AI-assisted tools** to optimize UI/UX, accelerate development, and enhance design quality. Ensured website reliability through **debugging, testing, and Git-based version control**.

## EDUCATION

**Master of Computer Applications (MCA)**
Mesco Institute of Management and Science                                          01/2026

Jagruti Degree and PG College                                                     01/2024
**Intermediate (MPC)**
Dr. Jindal Junior College                                                         01/2020
**Secondary School Certificate (SSC)**
Knowledge High School                                                             01/2018

## CERTIFICATIONS

**Data Analytics Certification**                                         10/2025 - Present
Shivasoft Tech Pvt. Ltd.

**Full Stack Web Development Course**                                    11/2024 - 02/2025
Tech Mindsparc Innovation

## PROJECTS

**Matcha Mixologist**

A modern e-commerce platform for premium Japanese Matcha tea. Built with React, TypeScript, and shadcn-ui, featuring a clean, elegant design that showcases the quality of Japanese tea products.

**StyledbyNazima-Clothing landing page**

Developed a responsive and visually appealing landing page for a clothing brand using HTML, CSS, and JavaScript. With the help of AI tools, enhanced the design process and optimized the layout to create a modern, user-friendly interface that effectively represents the brand identity.

# FileMyRTI – RTI Portal (All States & UTs)

Ranazon Ai

Developed the **RTI Jammu & Kashmir web portal** as part of the FileMyRTI platform and **replicated the complete system for all Indian States and Union Territories**. Implemented consistent layouts, department-wise RTI structures, dynamic content handling, and scalable deployment to maintain uniformity and reliability across multiple regional RTI portals.

## SKILLS

### Tools & Platforms

- Git & GitHub  VS Code  Hostinger VPS  Windows & Linux (basic server usage)

### Deployment & Hosting

- VPS Deployment using Hostinger  Domain & DNS Configuration  Nginx Configuration (basic)  Production Builds & Environment Setup  Git-based Deployment & Version Control

### Technical Skills

- CRUD Operations  Data & Analytics: Python (basic)
- CSS3
- Database Data Management
- Data Manipulation  AI-Assisted Development: Website building with AI tools
- Frontend: HTML5
- JavaScript
- Power BI
- React
- shadcn/ui
- Tailwind CSS (basic)  Backend & Database (Basic): SQL
- TypeScript  UI & Design: Responsive Web Design
- UI/UX optimization using AI
