SUMMARY

Results-driven Software Engineer with hands-on expertise in full-stack web application development, API integration, and cloud VPS hosting infrastructure. Proficient in modern JavaScript/TypeScript ecosystems, including React, Next.js, Node.js, Express, and relational/NoSQL databases (MongoDB, PostgreSQL, MySQL, Supabase). Experienced in building scalable ERP modules, state-wise web portals, and document processing automation tools. Holds a Master of Computer Applications (MCA) degree with strong analytical problem-solving skills and a focus on delivering secure, production-ready software solutions.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3
Frontend Development: React.js, Next.js, Tailwind CSS, Shadcn UI, Responsive Web Design, State Management, UI/UX Optimization
Backend Development: Node.js, Express.js, RESTful API Architecture, Authentication & Authorization (JWT/OAuth), CRUD Operations
Databases & Storage: MongoDB, PostgreSQL, MySQL, Supabase, Data Modeling
DevOps & Hosting: Hostinger VPS Management, Nginx, Vercel, DNS & Domain Configuration, SSL Certificates, Linux/Bash
Developer Tools & Practices: Git, GitHub, VS Code, Vite, npm, Technical Troubleshooting, System Debugging, Performance Tuning

PROFESSIONAL EXPERIENCE

Web Developer October 2025 – Present
Ranazonai Technologies | Hyderabad, Telangana

- Spearheaded full-stack feature development and routine system maintenance for the core platform **FilemyRTI** and associated web applications.
- Engineered responsive frontend interfaces using React, TypeScript, and Tailwind CSS while establishing REST API integrations with backend Node.js microservices.
- Orchestrated production deployments on Hostinger VPS environments, configuring Nginx web servers, DNS records, and SSL certificates for high availability.
- Diagnosed and resolved critical production bugs, domain routing errors, and cross-browser compatibility issues to elevate operational uptime.
- Conducted competitor system research to propose architectural and UI/UX enhancements, boosting user engagement and portal workflow efficiency.

KEY ENGINEERING PROJECTS

Shree Balaji Hub ERP — Business Operations System React, TypeScript, Node.js, Express, MongoDB

- Architected a multi-tenant enterprise resource planning (ERP) system tailored for high-volume distributor operational workflows.
- Developed modular subsystems for inventory control, customer/supplier management, invoice generation, user authentication, and financial reporting.

RTI PDF Manager — Workflow Automation System React, TypeScript, Node.js, Express, Supabase

- Designed and deployed an automated document management pipeline supporting QR-code image uploads, real-time PDF editing, and dynamic document merging.
- Integrated Supabase backend services for secure file storage, user authentication, and real-time database state synchronization.

FilemyRTI Web Portals React, TypeScript, JavaScript, VPS Hosting

- Developed and deployed state-wise accessible public service portals using modular UI components and responsive layout structures.

EDUCATION

Master of Computer Applications (MCA) 2024 – 2026
MESCO Institute of Management and Computer Sciences, Hyderabad

Bachelor of Science (B.Sc.) in Statistics 2021 – 2024 (GPA: 7.6)
Jagruti Degree and PG College, Hyderabad

Intermediate (MPC) 2018 – 2020 (GPA: 7.8)
Dr. Jindal Junior College, Hyderabad

Secondary School Certificate (SSC) 2018 (GPA: 8.3)
Knowledge High School, Hyderabad

CERTIFICATIONS

- **Full Stack Web Development Certification** – Tech Mindsparc Innovation (Nov 2024 – Feb 2025)
- **Data Analytics Certification** – Shivasoft Tech Pvt. Ltd. (Jul 2025 – Jan 2026)
