Software Engineer

Software Engineer with hands-on experience in web development, website management, and full-stack application development. Skilled in building responsive web applications using React, JavaScript, TypeScript, Node.js, and Express. Experienced in developing and maintaining websites, implementing frontend and backend functionality, integrating REST APIs, managing databases, and deploying applications on VPS hosting environments. Familiar with Git, GitHub, domain and DNS configuration, and technical troubleshooting. Holds a Master of Computer Applications (MCA) degree with strong problem-solving, analytical, and technical skills, focused on developing reliable, scalable, and user-friendly software solutions.

WORK EXPERIENCE

Ranazonai Technologies **10/2025 - Present**
Web Developer **Hyderabad**
Contributed to the development and maintenance of the company's website, FilemyRTI, along with multiple other web projects. Worked on frontend development, backend integration, website enhancements, and competitor research to improve functionality and user experience. Managed production deployments through Hostinger VPS, including domain and DNS configuration, debugging, and technical troubleshooting.
